

The Early Years Team

Miss Swann

Hello my name is Miss Swann, I am the class teacher in Curious Creators and have worked at Haggonfield's for 12 years. I love working within the outdoor area, planting many seeds each summer and watching them grow. This year we have tomatoes, runner beans, peppers, strawberries and much more. I also love animals, my favourite would have to be a turtle because they are cute and calming.

I enjoy swimming and would like to go snorkelling to see turtles in the ocean one day. My other favourite area within the classroom is our art area because you can create models and painting, you get to work with clay, crayons, oil pastels, sticky glue and tape. However, most of all I enjoy working with all the amazing children at Haggonfield's.

Hello I'm Mrs Morton.

I love to learn in early years I like to draw, paint and make things in the art area. My favourite colour is pink.

When outside in provision my favourite area is the water area I like to transport the water and investigate things that sink and float.

I love to read my favourite story is the three little pigs because I love pigs.

Mrs Morton

Mrs Moore

Hello my name is Mrs Moore, I have worked at Haggonfields for 11 years and love working in Curious Creators. I enjoy all areas of our learning environment, especially the mud and sand area. This is where the children mould, sculpt and create anything from food to animals, models, sandcastles or anything they have seen in their learning. I am always inspired with the children's creations. It truly is a pleasure to work with all the children and staff at Haggonfields .

My favourite colour is baby blue and my favourite animal is a seal. As a child I always wanted one as a pet.

Out of the school setting I enjoy outdoor walks with my dog who is a cockerpoo. My favourite sport is Formula 1 and I really enjoy watching the Grand Prix.

We can't wait to meet you!!
