

### MESSAGE FROM THE HEADTEACHER

Our Athletics Morning was a wonderful celebration of teamwork and friendly competition, with all colour teams giving their best and cheering each other on. The energy and sportsmanship across the field made it a brilliant event for everyone.

Wishing all our families a happy, restful Easter break. We look forward to seeing everyone again next term.

# HAGGONFIELDS' WAY

At Haggonfields we teach a Relationships and Behaviour Strategy that sets out expectations for pupils to follow through the learning day and beyond. We want to support our pupils to have a 'toolbox' of deep rooted principles that allows all to be responsible and respectable citizens.

We call this the Haggonfields' Way.

Each week, a pupil from each class that has demonstrated the values and behaviours outlined in the Haggonfields' Way will be awarded a certificate in the Celebration assembly.

You can learn more about our strategy on the website [The Haggonfields' Way](https://www.haggonfields.co.uk)

### What Parents & Educators Need to Know about SNAPCHAT

**SNAP STREAK**  
97

**AGE RESTRICTION**  
13+

With over 900 million active monthly users and billions of 'Snaps' sent each month, Snapchat is a popular messaging app among children and young people. It allows users to share fun, spontaneous pictures and videos with friends and family while using playful filters. One of Snapchat's unique features is that pictures, videos and messages are only viewable for a short period of time.

**WHAT ARE THE RISKS?**

**ARTIFICIAL INTELLIGENCE**  
Snapchat's use of artificial intelligence (AI) includes features like the 'My AI' chatbot and AI-powered filters, offering interactive experiences that can be fun but also pose risks. These tools may share unfiltered or inaccurate responses, promote unrealistic beauty standards, and collect personal data. Advanced filters and deepfake-style lenses can distort reality, potentially leading to manipulation, impersonation, or inappropriate content.

**SCREEN ADDICTION**  
Snapchat boosts user engagement and daily use with features like streaks (daily Snapchat exchanges between you and a friend). When a streak's been going for a few days, users will see a # emoji. The number alongside it shows the number of days, but if users miss a day and break the streak, the only way to restore it is to pay. This encourages daily use habits, and frequent notifications can keep users returning to the app even more often.

**SEXUATION**  
Because Snapchat's disappearing messages feature may foster a sense of safety, users may become targets of sextortion. For example, a predator may pressure someone into sending nude images, then somehow capture those images to threaten and intimidate the victim. This might involve claiming they will share the images with friends or family unless money is paid.

**SNAPCHAT+**  
Snapchat+ is the platform's premium subscription service, offering early access to new and exclusive features. In June 2023, Snapchat introduced a new tier called Lens+, giving subscribers access to hundreds of lenses and AR experiences for playing, creating, and sharing Snaps. These paid features may encourage young users to spend money to access exclusive content, increasing the risk of overspending or feeling pressured to make in-app purchases.

**ACCESSIBILITY**  
Snapchat is now accessible from a web browser, meaning children can use it on a laptop or tablet without downloading the app. This can make activity harder to monitor, reduce the effectiveness of parental controls, and increase the risk of unsupervised communication or exposure to inappropriate content.

**INAPPROPRIATE CONTENT**  
Some content on Snapchat isn't suitable for children. The hashtags used to group content are determined by the poster, so even an innocent search term could still yield age-inappropriate results. The app's disappearing messages feature also makes it easy for young people to share explicit images on impulse – so sexting continues to be a risk associated with Snapchat.

### Advice for Parents & Educators

**ACCESS THE SNAPCHAT FAMILY SAFETY HUB**  
Created with guidance from Common Sense Media, Snapchat has developed a Family Safety Hub that explains how the app works and how to use its in-app protections for teens. It's recommended that you review this guidance before allowing a child to download Snapchat. Remember, the app is only intended for children aged 13 and over.

**ENCOURAGE OPEN DISCUSSIONS**  
Snapchat's risks can be easier to handle if you nurture an open dialogue. Talk about scams and blackmail before letting children sign up. If they're lured into a scam, encourage them to tell you immediately. Talk openly and non-judgementally about sexting, emphasising its inherent risks. Furthermore, explain how popular 'challenges' on the platform can have harmful consequences.

**BLOCK AND REPORT**  
If a stranger connects with a child on Snapchat and makes them feel uncomfortable by pressuring them to send or receive unwanted or inappropriate images, the child can tap the three dots on that person's profile to report or block them. There are options to state why they're reporting that user, with a tailored reporting section under the 'Nudity and Sexual Content' category. In this category, there's the option to report somebody for threatening to leak sexually explicit images, or 'nudes'.

**USE PRIVACY SETTINGS TOGETHER**  
Sit down with the children in your care and explore Snapchat's privacy settings as a shared activity. You can help them adjust who can contact them, view their stories, or see their location on Snap Map. It's a good opportunity to explain why some settings are safer than others, reinforcing their understanding of online boundaries. Encourage them to regularly review these settings, especially after app updates or changes in their friendship groups.

**Meet Our Expert**  
Dr Claire Sutherland is an online safety consultant, educator and cyber researcher who has developed and implemented anti-bullying and cyber safety policies for schools. She has written various academic papers and carried out research for the Australian Government comparing internet use and sexting behaviour of young people in the UK, USA and Australia.

### Meningitis

Meningitis is a serious condition where the protective layers around the brain and spinal cord become inflamed. It can happen to anyone, so it's important to know the symptoms and risks.

Early symptoms, such as fever, vomiting, aches, muscle pain, cold hands and feet and headaches, can look similar to common illnesses like colds or flu. But someone with meningitis will usually become seriously ill in a matter of hours. That's why it's crucial to keep checking on anyone who is unwell.

### Symptoms

- Sudden onset of high fever
- severe and worsening headache
- stiff neck
- vomiting and diarrhoea
- joint and muscle pain
- dislike of bright lights
- very cold hands and feet
- seizures
- confusion/delirium
- extreme sleepiness/difficulty waking
- a rash that doesn't fade when pressed with a glass.

**If you become worried about yourself, your child, or a friend, particularly if symptoms are getting worse, seek medical help urgently. Early treatment can be life-saving.**

## Early Years

This week in Early Years, we have been learning all about the Christian Easter story and why Easter is such a special celebration for many people. We were delighted to welcome our local reverend, who came to share the story with the children in a warm and engaging way. The children also enjoyed taking part in our exciting Easter egg hunt and got creative with lots of lovely Easter crafts, including painting eggs and making their own decorated chicks. It's been a joyful week filled with curiosity, creativity, and plenty of Easter fun.

## Our Learning

This week, the children have been busy learning to count in threes and have been working incredibly hard to complete their assessments. We also had a fantastic time at Sports Morning—everyone was so enthusiastic and engaged throughout! We are very proud of all their efforts. Wishing you all a wonderful half term and a happy Easter!

## Our Learning

This week in Adventurers has been full of creativity, curiosity, and active fun. We wrapped up our learning on natural disasters, and the children put their knowledge into action by crafting their very own clay volcanoes. They were so proud of their creations and loved seeing their ideas take shape. It's been a lively and memorable week, with plenty of learning and lots of smiles.

## Our Learning

Our Entrepreneurs brought the term to a fantastic close with their final swimming session, complete with a joyful celebratory party! Throughout the week, the children also explored our local mining history, took part in a sports morning and worked on presenting data by creating a range of charts using Excel. We rounded off the week with a creative Focus Friday, where the children delighted us with their wonderful Easter sketches.
